Special-Offer to the Trade 1900-1901

... of ...

Choice Seeds and Bulbs

Wildpret Brothers

Puerto-Orotava, Teneriffe

Canary Islands

Notice.

The seeds we have the honour to offer in this catalogue, are grown in the well known Valley of Orotava under our supervision, being of the best germinating quality obtainable.

We hope to be able to supply all the seeds herein contained, though we may be disappointed in procuring some of them, as in many seasons the crop is destroyed by the strong winds that visit our islands.

Orders are requested to be sent in, if possible immediately on receipt of this catalogue, especially those of large quantities.

We beg our customers to state the port and agent to whom goods shall be consigned. Goods travel at consignee's risk.

Terms: Strictly three months; 5% interest on delay and 5% allowance when remittances are made with the order.

Orders from new customers should be accompanied by references to well known firms.

English, French, German and Spanish Correspondences.
